UC 2026 LAAX

Sponsorship Packages and Opportunities

October 5 – 6, 2026

ABOUT THE EVENT

- The *QGIS User Conference* is an annual event that **brings together** users and developers of the QGIS open-source geographic information system (GIS) software.

- The conference provides an opportunity for attendees to learn about the **latest developments in QGIS**, share their **experiences** with others, and **network** with other QGIS users and developers.

- The conference attracts attendees from a **broad spectrum** of organizations and industries.

conference.qgis.org

FIRST TIME IN SWITZERLAND

- For the first time, the event is being held in Switzerland, in the heart of Alps at 2’222m

- Switzerland has a thriving QGIS ecosystem with many early adopters across government, industry, and academia, further boosted by the EMBAG law mandating open source software in the federal administration.

- Laax's unique mountain setting ensures the conference stands out as a memorable, high-profile event. Sponsors benefit from exceptional visibility in an inspiring venue that attendees will talk about long after they leave.

- The conference is organized by OPENGIS.ch and QGIS Switzerland with the support from the QGIS.org Association

SAVE THE DATES

Six days of **talks, workshops,** and **community** surrounded by spectacular **mountain scenery** and **outdoor** opportunities.

OCTOBER

4th – Outdoor day

5-6th – Conference

7th – QGIS workshops & QField Day

7-9th – Contributors meeting

SAVE THE DATES

The conference (5-6 Oct) includes a variety of presentations, workshops, and discussions on a wide range of QGIS topics.

The workshops day (7 oct) provides hands-on experience with specific QGIS tools and techniques - both for beginners and advanced users. The same day will also see a **QField day** where participants head outside to discover the local region in real fieldwork conditions.

Right after the conference, 29th QGIS **Contributor Meeting** (7-9 oct) will be held at the same venue. Contributor meetings bring together active members of the QGIS project to plan their work, hold face-to-face discussions and brainstorm new ideas.

An informal active **outdoor day** is also planned on 4 October, the perfect warm-up before the conference kicks off.

VENUE: CRAP SOGN GION

The event will be held at LAAX Galaaxy on Crap Sogn Gion, at 2,222 m above sea level, in the heart of the Swiss Alps.

Set right next to the Tectonic Arena Sardona UNESCO World Heritage Site, the venue offers panoramic views over the mountain landscape of the Surselva valley, one of the few Romansh- speaking regions in Switzerland.

WHY SHOULD YOU SPONSOR?

- Because sponsoring this kind of event goes beyond mere marketing - it is about actively **engaging with a vibrant community**, demonstrating thought **leadership**, and capitalizing on the immense potential of the **geospatial technology** landscape.

- Because it is a **strategic investment** that not only yields tangible benefits in terms of networking and brand enhancement but also contributes to the **advancement and sustainability** of the **open-source ecosystem** as a whole.

- Estimated attendance: **430** participants

SPONSORSHIP LEVELS

PACKAGES	PLATINUM	GOLD	SILVER	BRONZE	SUPPORTER
Contribution in CHF	6’000	4’000	2’000	1’000	any
Conference tickets	3	2	1	0	0
